

Year 3 Daily Activities - Day 5

Birthday Shout-outs!

We would like to wish Daisy in Redwood
Class a very happy birthday!!!

Happy Friday Year 3! The end of another week of learning at home. Well done for all the effort you are putting into your work- make sure that you thank your grown-ups or brothers and sisters at home if they have been helping you with the tasks! If someone has been helping you, it might be nice to make them a card to say thanks. Have a great weekend so that you are ready to get back to your learning at home again on Monday! We all miss you very much! The Year 3 team.

Maths: Gertrude has a place value chart and 10 counters. She says that the biggest number she can make is represented below.

H	T	U

Do you agree with her? If not, investigate and find out which is the biggest number that can be made, and also which is the smallest.

Writing: Today you are going to finish your version of Christopher Nibble! Now comes the big moment when you take the dandelion carefully to the top of the hill to blow the seeds off so they can grow again all over Dandeville. Describe the feelings you have at this point, how you treat the seed head as you carry it up the hill. Finally describe how you felt after the dandelions had finally grown and returned again.

PSHCE:

At the end of the story of Christopher Nibble, Christopher carries on playing football as he did before, but has also learn to love a new hobby- gardening! We have all been at home for a few weeks now, is there something you could already do that you have been able to practice more? Have you tried something new? Have you been inspired to take up a new hobby? Write or draw about it in your home learning book.
