

# YEAR 4 DAILY MENU

Morning Year 4, let's start with a joke. What do you call a robot that takes the long way around? R2detour!! Ha-ha!! How about this one...how does a scientist freshen their breath? With **experiments**!! Why not tell us a joke in your class dojo portfolio? We all need a smile. 😊 How are you doing? We hope you are helping around the house and doing your part at home. We know how amazing you are – be positive and give a helping hand. Ask how you can help adults at home. Have a great day year 4!

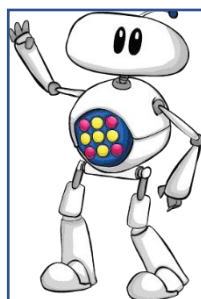

## Starters

## Main course

## Dessert

### MATHS

Have you completed your myMaths activity this week? Check it out.

Have a go at solving the word problems below. Remember to write the calculation you did to solve the question NOT just the answer.

Well done year 4. Remember to add a post onto your class dojo portfolio.

### ENGLISH and CREATIVE combined

#### The King of the Fishes

Today I have boxed up the story which will help us to write our own wishing tale. I have tried to identify the main parts to the tale and boxed it up. Have a think about how you want your own story. Use the templates to help you record your ideas.

King of the Fishes	Plot Pattern	My New Story Plan
Li is a poor fisherman.	MC is poor	Zoe is a poor oyster diver .
Li catches the King of the fishes but chooses to put it back	MC rescues an animal that is the King or Queen of its kind.	Zoe catches an oyster with a fabulous pearl. Puts it back. Turns out it is the Queen of the oysters.
The King of the Fishes grants Li one wish.	The animal grants the MC one wish.	Oyster grants Zoe one wish.
Li asks each member of his family what they would wish for. He struggles to decide.	The MC struggles to decide what to wish for.	Zoe wants her uncle to have money to fix the leaks, her mother to walk again and she wants to have a puppy.
Li combines three wishes into one and asks the King of the Fishes for his wish.	The MC chooses his wish, asks the creature and his wish is granted.	Zoe wishes for her mum to dance around with her puppy in the garden of their mansion.
Everyone is happy.	All is well. The MC is now rich.	Zoe is rich and all her dreams have come true.

### PLANNING STAGE

#### The King of the Fishes

In your own story, your main character will need to rescue a king or Queen of a species (alien, octopus, koala, iguana, dragon, dinosaur)

Time to get creative. Pick an animal and draw or describe what the King or Queen of its kind would look like.

## A

- 1 Tickets for a boat trip cost £5 each. How much will seven tickets cost?
- 2 Ninety-two people work at a supermarket. 54 are men. How many women work at the store?
- 3 Craig has 24 sweets. He eats a quarter of them. How many does he have left?
- 4 There are six classes in the school. Each class has 30 children. How many children are there in the school?

## B

- 1 There are nine bunches of flowers. Each bunch has eight flowers. How many flowers are there altogether?
- 2 A school has 225 children. 76 are out on a trip. How many children are in school?
- 3 Each page of Liam's exercise book has 23 lines. His story is three full pages and 17 lines long. How many lines has he written?
- 4 Sophie picks 174 apples. Chantal picks 38 more than Sophie. How many do they pick altogether?

## C

- 1 Becky saves 20p coins. She has saved £4.60. How many coins has she saved?
  - 2 A shop has 541 pairs of shoes in stock. 179 pairs are sold. How many pairs are left?
  - 3 One biscuit weighs 60 g. What do twelve biscuits weigh?
  - 4 There are 27 more pupils in the Upper School than in the Lower School. There are 114 in the Upper School. How many pupils are there in the whole school?
- 5 Books cost £6.90. Stuart buys one and gets one half price. How much does he pay?
  - 6 The total audience at a pantomime is 342. There are 68 more children than adults. How many adults are in the audience?

Remember MC means main character of your story [Use the same basic story and just change the key characters and objects.](#)
