

Year 3 Daily Activities - Day 1

Here we go then Year 3! Another week of activities to support your learning at home! We hope you are still enjoying them, and feeling motivated to have a go at everything! As well as these activities, don't forget to get yourself moving and get involved in physical activity- always making sure you stay safe of course! Enjoy the activities today, and for the rest of the week.

Mr Burnett, Ms Gerring, Mrs Hawkins and Mr Burrows!

Writing: Today we would like you to turn to page 14 of the Talk for Writing booklet. This task will be for today and tomorrow. We want you to write your own explorer log, using all of the different elements you have been learning about over the last few days- and, of course, remember to look back at your plan to help. There is a suggestion for making your log, but you can present it in any way you wish. Good luck explorers!

Maths: Today we would like you to complete the next White Rose maths lesson - The 4 and 8 times table. Watch the video and then have a go at the activities.

RE:

So far this term we have found out a bit more about the religions of Islam and Christianity. One thing that they both have in common is that they believe it is good to give to charity. Today we want you to think about why people give to charity and why it is so important for some religions. What charities do you know about already? How do they raise money for the work they do? Have you ever done anything to support a charity? Write about your experience and how it might have helped other and how it made you feel.
